Serving commercial and industrial customers with precision metal fabrication, fast turnaround times, and dependable quality.

EQUIPMENT

**State-of-the-art equipment.
Precision results.**

Our advanced machinery allows us to deliver high-quality parts with accuracy, speed, and consistency you can count on.

01

FIBER LASER CUTTING

BODOR P3 Fiber Laser / Boss FC 6012

- Up to 5' x 10' sheet capacity
- Mild Steel and Stainless up to 1.50 in.
- Aluminum and Galvanized Steel up to 1.00 in.
- Brass: 26 ga to 0.625 in.
- Copper: 26 ga to 0.500 in.

02

WATERJET CUTTING

Laguna SmartJet 6' x 13'

- Up to 6' x 13' cutting area
- Steel, Stainless, Aluminum, and Copper up to 6'
- Titanium & Tool Steel: up to 4 in.
- Plastics, Rubber, Acrylic, Polycarbonate: up to 6 in.
- Foam: up to 12 in.

03

PRECISION FORMING

Speed-Bend Pro 10.1' Press Break

- 148-ton forming capacity
- Up to 10.1' bend length
- High accuracy and repeatability
- Complex part made simple
- Consistent results every time

04

LASER WELDING

Laser Welding System

- Clean, strong welds
- Minimal distortion
- Fast and precise
- Reduced finishing
- Perfect for stainless, mild steel, aluminum & more.

05

INDUSTRIAL GASKETING & SEALING

AIWEI FIPFG Gasket Machine

- Custom enclosure sealing
- Improved environmental sealing
- Consistent gasket dimensions
- Custom gasket profiles
- Repeatable production quality
